## PRICE. M'CORMICK & CO. OFFER A PLAN OF READJUSTMENT TO THEIR CREDITORS.

Stock Exchange Creditors Suggest That the Exchange Seats Be First Sold for Their Beneat-Crocker Of to Europe Again Reported Stormy Interview With Price. A plan for the readjustment of the affairs of the brokerage firm of Price, McCormick & Co., which failed about seven weeks ago, was made public yesterday by William Nelson Cromwell, tounsel tofW. J. Curtis, assignee of the firm.

The plan, in effect, provides for: (a) The immediate discharge of all outstand me loans, and the redemption of the remainor collateral thereon.

(b) The prompt distribution of 50 per cent. in cash to creditors availing of the plan, and the establishment of a trust in respect of cerain important assets which are not immediately marketable except at a great sacrifice, and from which securities it is anticipated much setter results will be realized during the period of the trust and under the prudent management of the trustees.

(o) Or, at the option of such creditor, to be to be exercised as stated in the plan, 26 per cent. In cash and the distribution to him in kind of his pro rate of certain of the stocks under the onditions of the plan.

(d) In either case, the further distribution by the Trustees, from time to time, of the net procoods of the assets embraced in the trust, induding any further dividends paid by the assignee; due allowance, of course, being made as to the respective rights and interests of preditors availing of the alternative priviloges. (e) The prompt winding up of the general

James G. Cannon, Vice-President of the Fourth National Bank; Brayton Ives, President Metropolitan Trust Company, and William Lanman Bull of Edward Sweet & Co., have consented to act as trustees under the plan. Mr. Cromwell states that the active accounts upon the books of the firm numbered more than 1,100; the indebtedness amounted to about \$18.000,000' and the secured loans to more than \$10,000,000. More than \$8,000,000 of the loans have been discharged; most of the accounts anvolving many complications) have been adjusted and determined, and the remaining loans are now being daily diminished.

The plan, by which customers were induced to take up their securities at the then market prices and to leave the deficiency thereon as a genral claim against the assigned cetate, Mr. Cromwell says, has worked admirably. In losing out the accounts, he believes, the liabildes will be increased by at least \$200,000 above all former estimates. He points out that some

all former estimates. He points out that some of the securities are of a kind not immediately marketable at advantageous prices.

Their investing to the best advantage might take two years. The chief asset of this sort is about 20,000 shares of the Philadelphia Company, which owns street railroads, natural gas, artificial gas and electric light and power properties in Pittsburg. This company pays annual dividends of 5 per cent, and the present market price of its shares is \$35, against a par value of \$50. The stock has sold at par.

It is not practicable, Mr. Cromwell says, for the assignee promptly to distribute 50 per cent, in each, but loans to the trustees under the plan have been arranged of an amount which, together with such sum as it may be practicable for the assignee to distribute at the same time, will afford the means for the immediate payment of 50 per cent, upon the approved claims of the depositing creditors, such loans to be secured by assets held by the trustees other than those distributed under the plan, and to run for the period of at least one year if the trustees so desire. The annual income from such assets is at present more than equal to the interest upon the trust loan. The oreditors are requested to deposit their claims with the Metropolitan Trust Company, whose negotiable certificates of deposit will be issued therefor. Already, Mr. Cromwell eave, creditors representing a large percentage have agreed to the plan.

It was reported in Wail Street vesterday that

s, created to the plan, was reported in Wail Birect yesterday that Stook Exchange creditors have asked that Stock Exchange seats owned by R. N. art-Wortley, W. G. McCormick and George and the stock and the sold and the mart-Wortley, W. G. McCormick and George rockeds used as provided for by the Exchange lies, to retire the claims of members. With its done it is easid this class of creditors ill accept the 50 per cent, proposition Mr. Cromwell. Mr. Crocker, whose \$600,000 terest in the firm as special partner has been ped out, again salled for Europe on the beanic last Wednesday. He was reported yearday to have had but one interview with neodore H. Price, of the firm, after his arrival on Europe following the failure. That interew is said to have been a stormy one.

### THE INVENTION OF CHILDREN.

Story That School Census Takers Largely Increased Families at Two Cents a Head.

The officials of the State Census Department of New Jersey have discovered what appear to be frauds in the recent State school census and are quietly conducting an investigation. The frauds, it 1: said, were first discovere in Bayonne. Many heads of families in that city received letters of inquiry recently from the State Department asking for confirmation of the enumerators' reports of their families. It has been learned that in some cases families of two or three have been recorded as being composed of eight or nine.

William Fisher, an insurance agent, living at 67 West Twenty-sixth street, Bayonne, was one of those interrogated by the State Department. He has only two children, both of whom are over 5 years old, the school age.

of whom are over 5 years old, the school age. He received a letter last week from the State Department in which he was asked to verify the report that he was the father of nine children, all of whom were supposed to be alive and living with him.

John H. Wenstell of Jersey City, who had charge of the recent United States census in the First district of New Jersey, which includes Bayonns, said yesterday to a Sun reporter:

I understand that padding of the school census has been discovered both in Bayonne and Jersey City. It may have occurred also in other parts of the State. The school census is conducted by the local Boards of Education, and I understand that the average money paid to enumerators is two cents a name. The school census was started about two months ago and recently was completed. The alleged padding of this census was discovered apparently by comparing it with the United States census. Our lists were submitted to the State Census Department and they compared them with the local census lists and in every case where discrepancies were discovered, the heads of the families were communicated with. The work of our men has been thorough and accourate, and I can vouch for it.

WOMAN CAUSED DRIVER'S ARREST. Mrs. L'Hote Said That Davis's Horses Had

Been Maltreated. Mrs. Francina L'Hote of 808 West Fiftydigth street appeared yesterday in the Jefferson Market court as complainant against Denale Drew, a driver, of 228 East 121st street. se arrest she had caused on a charge of cruelty to animals. Mrs. L'Hote, who is the ewner of a ranch in California, explained to Magistrate Mayo that on Friday afternoon while passing along West Twenty-third street she noticed that two horses harnessed to a heavily loaded truck and driven by Drew were in a wretched condition, having open wounds on their necks and showing other signs of maitreatment she engaged the driver in conversation while her daughter, Mrs. Dorothy Muliay, went after a policeman. Drew was held for trial by the Special Sessions.

Rdward Ten Broeck another driver, was also held for trial by Magistrate Mayo on evidence furnished by Elliott Butler, a merchant of \$2 Spring street, who alleged that he had seen Ten Broeck brutally beat an emaclated horse with the whip handle.

### HAS TWO LEGAL HUSBANDS.

Laura Wolff Is Mrs. Ward in This State. Mrs. Cushing in Mussachusetts.

A report of John H. Judge as referee has been made to the Supreme Court in which he finds made to the Supreme Court in which he finds that John P. Cushing is entitled to a decree annulling his marriage to Laura A. Ward in this city in 1894 on the ground that a divorce she had previously obtained is invalid. She was Laura A. Wolff and 18 years old when, in 1888, she married Nathinlel Ward, who now she married Nathiniel Ward, who now resides near the home of her mother where she lives in Brooklyn. She parted from Ward a year after the marriage and went to Boston, where nine tears ago she obtained a divorce from Ward, alleging abandonment. Ward had been served by publication of the summons from the Superior Court of Boston, Cushing left her has October and began the present action to set aside his marriage to her on the allegation that the Suserior Court of Boston had no jurisdiction over Ward, who was residing in this State. Referee Judge says that her decree against Ward is involid for want of jurisdiction. She is still the wife of Ward in this State, but Cushing's wife in Massachusetts.

FOUND HER SISTER AT LAST. It Was a Long Search, but Mary Kelly Is Glad Now She Made It.

Mary Kelly, a Brooklyn woman who had no ord of her family since she was separated from them twenty-five years ago, was united with her only living eister last Monday by means of a newspaper advertisement. Her father, John Kelly, served as a sergeant in the First New York Engineers during the civil war. Afterward he joined the New York police force, but the life was not to his liking and he went West leaving his wife and children behind him. For awhile he sent money to his family regularly, ut soon died from injuries received in falling off a train. Mrs. Kelly was unable to support her large family and sent them to various institutions Before she died several years later she ma :e every effort to get news of them, but for some reason could find no trace of her daugh-

Mary had been placed in the Catholic Protec-Mary had been placed in the Catholic Protectory, and was afterward adonted by a Brook-lyn family. She knew that the people she was living with were only her adopted parents and about fifteen years ago determined to search for those members of her family who might still be alive. In soite of her continued inquiries, her efforts were unsuccessful until recently when John O'Brien, a waterman of 621 Second avenue, happened to read her newspaper advertisement asking for information concerning the "whereabouts of Neille and Simon Keily, siner and brother of Mary Kelly, whom she has not seen or heard from since the year 1875." O'Brien remembered that John Kelly, with whom he had served on the police force, had had children of those names. Neille and Simon he knew were dead, but there was still a daughter. Catherines Louise Kelly, now Mrs. Charles Thornton, of 220 East 121st street. He notified Mary Kelly and arransed a meeting for her and Mrs. Thornton last Monday. They recognized each other almost immediately and their greeting was most affecting.

Mary Kelly has had many remarkable experiences during her long search. Only a few weeks ago a woman from Hoboken asserted that she was her sister Neille, who is dead. Twelve years ago another woman appeared in answer to her advertisement for Neille. This woman received food, shelter and clothes from Mary for three years before the imposition was discovered, but this time she knows she is right and that she has at last found a relative. tory, and was afterward adopted by a Brook-

DISPUTE OVER SHOEMAKER MONEY. Putnam Has Notice Served by Publication on His Mother in the Philippines.

Robert M. S. Putnam has begun a proceed ing in the Supreme Court to have a substituted trustee appointed to look after a trust estate created under the will of his maternal grandfather, Robert M. Shoemaker, a wealthy resident of Cincinnati who died in 1885. By the will of Shoemaker a trust was created for the benefit of his daughter, Mrs. Mary S. Putnam, mother of the plaintiff, with remainder over to her

of the plaintiff. with remainder over to her children. The trustee was her husband, John R. Putnam, who died last fall.
The plaintiff says he has not been friendly with his mother for a long time and that she has gone for an indefinite period to the Philippinee. The trust estate, which consists, as the plaintiff believes, of securities worth about \$100,000 deposited with the Lincoln Safe Deposit Company and some real estate in Saratoga, is all in his mother's name. He names his brothers larael and John R. Putnam defendants.

It is alleged that Mrs. Putnam went to the Philippines so as to be near her son Israel, who is Sacond Lieutenant of the Sixth United States Infantry. The plaintiff says he can get no information from his mother or brother as to when they will return from the Philippines. On these allegations Justice Mod dam yesterday issued an order to serve Mrs. Putnam and her son Israel by publication.

HBBREW SINGERS WITHDRAW.

The Society Halevy Says It Was Unfairly

The Hebrew Singing Society Halovy, which has withdrawn from the United Singing Societies of New York, issued a circular yesterday giving the reasons. The circular says that the society was entitled to the first prize at a singing festival in Philadelphia in 1897, but got no prize on the ground that its membership was too small. It did not get even a diploma. In the recent singing featival in Brooklyn, the circular says, it received no prize or diploma, though singing societies whose performances were not half so meritorious were favorably noticed and got either prizes or diplomas. The circular goes on to say that the society was snubbed repeatedly in a "shameful manner besides." For these reasons and others, the Hebrew Singing Society Halevy says it cannot remain with the United Singing Societies of New York and maintain its self-respect. A member of the society named Schimuckler who keeps a restaurant on East Broadway said yesterday that the members of the society were insulted on the Brooklyn oars during the singing festival in the coarsest way. "In fact there would the recent singing feetival in Brooklyn, the tival in the coarsest way. "In fact, there would have been a riot," he said, "if we had not kept our tempers." The alleged snubs and insults are aeribed to race prejudice by some of the members of the society.

TESTING RUSSIAN ARMOR PLATE. seful Experiments at Bethlehem Proving Grounds.

SOUTH BETHLEREM, Pa., July 14 .- The first test of Russian armor at the Bethlehem Steel Company's proving grounds was made to-day and was a success. The plate tested was a Krupp process plate curved representing the turret armor for the Russian battleship Retzivan, now building at Cramps, Philadelphia Four shots from an 8-inch gun were fired at the plate. The projectiles weighed 250 pounds each, and their velocity ranged from 1.988 to 2,088 feet per second. The greatest penetration was 2 8-8 inches, and the least 1% inches. No cracks developed. Many naval officials witnessed the test.

FIGHTING THE NEWCOMBRA

Attitude of Fishes in Captivity Toward Strangers in the Tank.

It is a common thing for fishes in captivity to fight newcomers that are put into the tank with them. It seems more as if the fishes already there, having got somewhat used to their rendy there, having got somewhat used to their narrow quarters, resented the intrusion of others that would divide the limited space and make life less comfortable.

But fishes thus brought together are likely pretty soon to come to live in amity; though sometimes there will be found in a tank a fish that seems to be of a hectoring disposition, and that is likely to bess the other fishes around more or less, at any time, no matter how long they have been together.

More New York Letter Carriers, or Not? Postmaster Van Cott said yesterday that he doubted the correctness of a Washington despatch to the effect that the Postal Commission would report adversely upon his request for additional letter carriers for the New York Post office. The report of the commission has not yet been made public, but the Postmaster expects that when it is published it will be found that his request for a hundred additional carriers has been reported favorably. The recent phenomenal growth in the business of the General Post Office as shown in the annual reports of the various divisions for the year ending June 30, 1900, is, the Postmaster thinks, the best possible argument for the proposed increase.

Actress Stops Contest of Miaco's Will. House, Grossman & Vorhaus, attorneys for the estate of Thomas Miaco, the vaudeville manager, announced yesterday that Miss Fanny Everett, the burlesque actress who played in his companies for ten years, had played in his companies for ten years, had withdrawn the contest of his will. She said she was the wife of Miaco, whose right name was Thomas Edwin Easlick. He left \$55,000 and leases of three theatres and contracts for two companies on the road next season. He left Miss Everett \$2,000 and bequeathed the rest of his property to his daughter, Edna C. Easlick, 16 years old, who re-id s with her aunt, Mrs. Adrianna B. Ball, at Medina, N. Y.

Bank Consolidation in Chicago. CHICAGO, July 14.-The Corn Exchange National Bank, the Northwestern National and America National banks are to be combined into one institution with

PINANCIAL AND COMMERCIAL SATURDAY, July 14.

To-day's statement of averages of the Assodated Banks apparently corrects to an extent some of the inconsistencies shown last week. The known movements of money last week re-\$3,000,000, but last Saturday's statement, as will be remembered, showed a decrease in lawful money of nearly that amount. During the past six days the banks are known to have received about \$3,500,000 from the interior and from the Sub-Treasury without counting receipts by ful money of nearly \$1,500,000 more than the amount just mentioned, indicating that the averages this week have been influenced by the money that did not show last week. The other fundamental change in the statement, namely, in the loans, is a moderate decrease which is not surprising in view of the midsun ner duiness not only in Wall Street, but in gen eral business. The increase in the deposits does not reflect the changes in the two items already the largest increase in the surplus recorded in many weeks, bringing that item up to very nearly \$20,000,000, or about twice what it was a

On the Stock Exchange there was practically no business to-day, there being no special incentive to trade on either side. Chicago Bribery Case Falls. CRICAGO, July 14. Jacob Kesner, manager of The Fair, was declared not guilty of attempting to bribe Alderman William Mangler by a jury to bribe Alderman William Mangier by a jury in Judge Baker's court this morning. This was the second trial, the jury disagreeing the first time. Mr. Kesner's trial was the result of a charge by William Mangier, in 1877, that The Fair manager had offered him \$2.000 to vote for the General Electric Railway extension franchies.

LAST OPPORTUNITY to obtain the Parent Company's stock of the This Company, through its broad and comprehen ive patents just issued, controls virtually a monopoly of what will become one of the most profitable industries of the age. The results attained by its early shareholders will be a repetition of the enormous profits realized by the early investors in electricity, telephone, air brake, shoe machinery, and other great sole-processor controlling companies, whose protection by patents gives them a monopoly in their several important lines. Fiscal Agents, GERALD M. FENNELL & Co. Broadway, New York, 8 Congress St., Boston
